ABOUT XPENG

Founded in China with investment from Alibaba, Foxconn, and IDG Capital (and a 5% stake held by Volkswagen Group), XPENG designs, develops, produces, and sells a diverse portfolio of smart electric vehicles. This includes the G3 and G3i smart SUVs, the sporty P7 and P7i smart sedans, the flagship G9 SUV, the versatile G6 SUV, and the innovative X9 smart multi-purpose vehicle. XPENG distinguishes itself by developing its advanced autonomous driving and intelligent in-car systems in-house.

This focus on technology has led to significant market recognition, achieving a leading position among new electric vehicle entrants in China with substantial delivery volumes in 2025 becoming the 2nd fastest growing brand in China. XPENG has reached over 60 countries globally including Sri Lanka, driving the evolution of intelligent and sustainable mobility on a global scale.

EVOLUTION AUTO IS A JOINT VENTURE BETWEEN ATMAN GROUP & SINO LANKA.

As a prominent player in the New Energy Vehicle sector, Evolution Auto is dedicated to advancing sustainable transportation through strategic global partnerships. With a strong international presence, the company delivers cutting-edge electric vehicles to the region.

In Sri Lanka, Evolution Auto collaborates with leading electric vehicle manufacturers to drive sustainability, promote eco-friendly transportation, and reduce carbon emissions, contributing to a greener future.

Atman is a Singapore-based multi-family office investment firm specializing in global strategic investments across high-growth sectors worldwide, with a strong presence in key Asian markets.

The firm's diversified portfolio spans hospitality, aquaculture, retail, agriculture, and renewable energy, reflecting its commitment to sustainable and value-driven investments.

Sino Lanka is a Sri Lankan entity focused on development across Asia through a collaborative network of individuals sharing strategic goals and impactful initiatives.

Their diverse investment portfolio spans several fields, including leisure, healthcare, education, financial services, renewable energy, and technology-driven solutions.

MANAGEMENT TEAM EVOLUTION AUTO

**VIRANN DE ZOYSA
(GROUP CEO)**

With over 20 years of experience in the automotive industry at AMW, Virann de Zoysa has a proven track record of building and expanding brands. Under his leadership, he has driven market share dominance for 15 consecutive years, maintaining an average market share of 35% while managing renowned brands such as Suzuki, Nissan, and Renault.

He formerly served as the Chairman of the Ceylon Motor Traders' Association, affiliated with the Ceylon Chamber of Commerce.

THE ULTRA-SMART COUPÉ SUV

XPENG is a leading Chinese electric vehicle manufacturer known for merging smart technology with innovative design. The XPENG G6, a standout model, is a sleek, all-electric SUV built on an advanced 800-volt architecture for ultra-fast charging and efficient energy use. Its aerodynamic design combines style with functionality, while the spacious interior ensures comfort and tech-driven convenience. Safety is prioritized with intelligent driver assistance systems, making the G6 a bold step into the future of mobility, delivering innovation and performance for everyday use.

PRECISION IN MOTION

The XPENG G6 features a sleek, aerodynamic exterior that enhances efficiency and creates a bold presence. Its clean lines, sculpted body, and distinctive front fascia with integrated lighting establish a striking visual identity, while the sporty roofline and flush door handles emphasize precision and elegance.

Robot Face Design

XPENG's iconic signature design language. The fluid body design with techno-flow aesthetics exudes a sense of simplicity unlike any other.

Streamlined Body Shape

Short front and rear overhangs with low center of gravity are designed for a superior and comfortable driving experience. Suspended roof design offers generous interior space and comfort.

LED Headlights

Auto-sensing LED headlights, daytime running lights, integrated position lights and dynamic running turn signals are standard across the range.

Suspended Roof With Frameless Door

The unique roof design creates a very dynamic stance. Frameless doors provide a more open view and the hidden door handles smooth out the side styling and reduce turbulence, lowering wind resistance.

Ultra-Low Wind Resistance Body

The vehicle has 17 low-drag designs, with a drag coefficient as low as 0.248, which translate to a more precise energy consumption control and prolongs the battery life.

LED Taillights & Widened Shoulders

The XPENG G6 looks sensual and bold with the widened flare out shoulders, while the thick-walled rear LED taillights are highly recognisable at night.

NEXT-GEN SMART COCKPIT

The XPENG G6 pioneers the use of artificial intelligence technology in both its cockpit and driving systems. It features the advanced Xmart OS in-car operating system, providing a more intuitive, human-like experience that is highly interactive and truly understands your needs.

Xmart OS In - Car Operating System

Powered by a Qualcomm Snapdragon SA8155P chipset. The Xmart OS in-car operating system leverages multi-sensor software and hardware platforms to enhance driver and vehicle interaction.

High Resolution Displays

A high-resolution 14.96-inch central control screen coupled with a 10.2-inch digital dashboard provide an intuitive interaction experience.

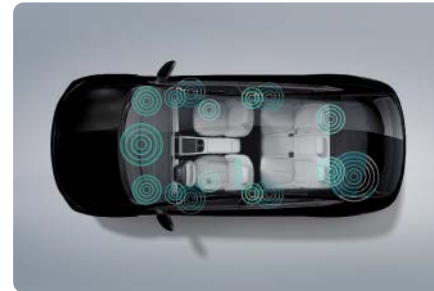

Always Up To Date With OTA

The infotainment system features wireless Apple CarPlay and Android Auto, an extensive music and video library, entertainment and social media applications. The system will be updated via periodic software updates that take place completely Over-The-Air (OTA).

Xfreebreath Air Purification System

Dual temperature zone automatic air conditioning with Xfreebreath intelligent air purification system, which purifies in-car air to keep low-level PM2.5 and automatically switches to inner-loop air recycling mode if it detects major pollutants outside the car.

Unmatched Sound From XOPERA

18-speaker XOPERA Surround Audio System with a total power of 960W, provides panoramic sound effect technology and acoustic algorithm for an immersive sound experience.

Hey XPENG' Voice Assistant

Highly customisable and adaptable, the all-scenario voice assistant is here for you, listening to your requests, providing you a hands-free experience that suits your command and needs.

UNPARALLELED COMFORT & CONVENIENCE

Experience the XPENG G6's expansive interior, which provides exceptional legroom and headroom, establishing a new standard for comfort and convenience in its class. This innovative design seamlessly blends lifestyle and technology, transforming every journey into a serene retreat for all passengers.

Cloud-Like Surround Seats

The power-adjustable ergonomic seats provide perfect support to maintain an ideal position and posture.

Ventilated & Heated Seats

Seat ventilation and heating (cushion and headrest) for both driver and front passenger, while rear passengers' seats are equipped with seat heating.

Panoramic Glass Roof

XPENG G6 comes with an oversized panoramic glass roof that provides open views and light.

Dual 50W Wireless Charging

The center console is equipped with a dual wireless charging pad, each offering 50W of high-power charging capability and with air-cooling for efficient heat dissipation.

Fully Electric Tailgate

Easy access to the spacious 571L trunk via the electric tailgate. Expand the trunk space to 1,374L by fully folding and flattening the 60:40 foldable rear seats.

Electric Release Door-Open Button

One-touch door opening, easy and fast.

ELEVATE YOUR DRIVE

Experience the freedom to drive confidently with the XPENG G6, which offers outstanding stability and handling. It masterfully combines performance with comfort, allowing you to enjoy every journey as a luxurious experience. Whether you're commuting in the city or exploring open roads, the innovative technology and elegant design of the G6 ensure that your ride is both enjoyable and unforgettable.

Fast Acceleration

At the core of the XPENG G6 is a meticulously engineered powertrain that delivers 255 horsepower and a 0-100 km/h acceleration time of just 6.6 seconds.

Impressive Driving Range

With ultra-low energy consumption, the XPENG G6 delivers a reliable driving range of up to 435 km*, making it an ideal choice for both daily commutes and longer journeys.

*Range according to WLTP.

Superb Handling & Comfort

The XPENG G6 features front double wishbone independent suspension and rear multi-link independent suspension.

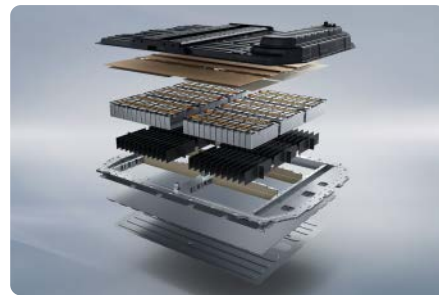

SAFETY YOU CAN TRUST

The XPENG G6 seamlessly blends style and safety, offering peace of mind with its state-of-the-art NVIDIA DRIVE Orin-X chipset. This chipset powers a network of 29 intelligent driving sensors -including radars, ultrasonic sensors and cameras-that work together to ensure every drive is as safe as it is smooth. With innovative construction techniques that enhance the vehicle's strength and crash protection, the XPENG G6 is designed to keep you and your loved ones safe on every journey.

XPILOT

The XPILOT 2.5 driver assistance system consists of 29 intelligent driving sensors powered by the NVIDIA DRIVE Orin-X chipset, featuring multiple class-leading safety functions.

10 dimensions of battery safety

Focused on battery cell, through the five areas of intelligent guarding, high-voltage protection, quality assurance, disaster control and mechanical dependability as well as the ten dimensions of safety design are used to improve system safety protection and accomplish no heat diffusion and no heat spread of the battery.

High-strength steel-aluminium hybrid body

The body of G6 is composed of a blend of diverse steel and lightweight aluminium, with 26% high-strength steel and 51% aluminium, and the roof's compressive strength is 4.83 times that of the vehicle's weight.

7 airbags as standard

Maximum anti-collision protection for both driver and the passengers.
